Time is Money: Innovative Snap-on tools are Time Savers

KENOSHA, Wis. – August 18, 2011 – Every job you do takes a certain amount of time and effort. At Snap-on, we help improve productivity and efficiency by designing time-saving tools that not only make you more efficient, but allow you to do more jobs during the course of the day. More jobs means more money and these two Snap-on time savers, the Snap-on Wheel Hangers (WHV2) and the Snap-on Filter Flip Socket (S3624), are sure to help improve your bottom line.

Snap-on Wheel Hangers (WHV2)

- Job: Rotate the tires on a VW or Audi
- Challenge: Hubs have no wheels studs. Holding each tire while aligning and installing the bolts is awkward and can potentially hurt your back.
- Solution: Use Snap-on Wheel Hangers (WHV2) and you will have a safe and fast way to rotate tires.

Snap-on Filter Flip Socket (S3624)

- Job: Remove and install filter caps on Ford 6L Power Stroke diesel-powered pick-ups
- Challenge: Primary and secondary filter caps require separate tools to remove/install each cap, three sockets in one, 36/35mm and 24mm.
- Solution: The Snap-on Filter Flip Socket (S3624) allows you to remove and install all three filter caps with one tool, saving you time.

“Each tool that Snap-on manufactures is designed to make service technicians more efficient and more productive,” said Scott Amundson, product manager for Snap-on. “Our wheel hangers and filter flip socket are specifically designed to minimize the time it takes to perform these jobs and are another great example of Snap-on staying ahead of the curve when it comes to innovation and efficiency.”

Customers can find out more about Snap-on’s time-saving tools by contacting their participating Snap-on franchisee or representative, visiting www.snapon.com or by calling toll free 877-SNAPON-4 (877-762-7664).
