## **Blue-Point XL Air Hammer Drift Set Takes Care of Rusted Shock and Strut Bolts**

**KENOSHA, Wis. – January 22, 2013** – The new Blue-Point® XL Air Hammer Drift Set (PHGL37KT) is the perfect solution for breaking free hard-to-reach bolts and pins that have seized due to rust and time.

“Rusted shock and strut bolts are no match for our new Blue-Point Air Hammer Drifts,” said Brian Woller, category manager for Snap-on. “These air hammer drifts are easy to use and make removing tough-to-access bolts much less challenging, giving service technicians the opportunity to spend more time on other jobs. Blue-Point Air Hammer Drifts will help increase performance and productivity.”

Designed for suspension work where rusted shock and strut bolts cannot be accessed with conventional length punches and tapered drifts, the new *Blue-Point* XL Air Hammer Drift Set (PHGL37KT) provides the extra driving force of an air hammer where needed and its five-inch long parallel shaft design will not get stuck in deep holes. The set includes the three most commonly used sizes (8 mm to 5/16-inch, 10 mm to 3/8-inch and 12 mm to 1/2-inch) and a canvas pouch for storing.

Customers can learn more about the new *Blue-Point* XL Air Hammer Drift Set (PHGL37KT) by contacting their participating Snap-on franchisee or representative, visiting [www.snapon.com/handtools](http://www.snapon.com/handtools) or by calling toll free 877-SNAPON-4 (877-762-7664).

### **About Snap-on Tools**

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, diagnostics and equipment solutions for professional users.
