News from Innovation Works: Snap-on KoolKare™ Plus Hybrid-Capable A/C Recycler

Innovative A/C System Service Works on Both Hybrids and Non-Hybrids

KENOSHA, Wis. – March 26, 2013 – The servicing of hybrid vehicles is becoming much more common in many shops, requiring special tools and equipment. With the new Snap-on® KoolKare™ Plus Hybrid-Capable A/C Recycler (EEAC325BH), service technicians can not only take advantage of A/C service opportunities on hybrids, but the sophistication of the machine also allows them to service non-hybrid vehicles as well.

“The unique features of the innovative EEAC325BH enable service technicians to service both hybrid and non-hybrid vehicles and that helps increase the repair shop’s A/C revenue possibilities,” said Dan Batassa, category manager for Snap-on. “Hybrid vehicles are a fast growing segment of the vehicle population and the KoolKare™ Plus Hybrid-Capable A/C Recycler lets technicians service them properly and safely.”

Some of the key features of the new *Snap-on KoolKare* Plus Hybrid-Capable A/C Recycler include:

- Menu-selectable function provides the ability to clear any residual oil from the recycler’s fluid circuit and hoses, minimizing the risk of PAG to POE oil cross-contamination
- Meets new refrigerant recovery standards J-2788 for high voltage compressors
- A/C capacities database
- Automatic air purge
- Recovery accuracy \pm 1.0 ounce
- Charge accuracy \pm 0.5 ounce

It is strongly recommended that users purchase two manual oil injectors (ACT53134A), one designated for use with POE oils (used in hybrid electric compressor systems) and one for PAG oils (used in non-electric compressor, non-hybrid systems).

Customers can find out more about the new *Snap-on KoolKare* Plus Hybrid A/C Recycler (EEAC325BH) by contacting their participating Snap-on franchisee or representative, visiting www.snapon.com/shoptools or by calling toll free 877-SNAPON-4 (877-762-7664).

About Snap-on Innovation Works

Innovation Works is a 25,000 square foot, state of the art facility located at Snap-on’s Kenosha campus that provides a resource for the entire global organization. It supports a vibrant customer-centered innovation process. The space includes a sophisticated service garage, franchise van display, 2D prototyping room, design lab, 3D modeling facility, display and application room, customer observation room, training room, museum, and IdeaFORGE - a 600 capacity multimedia conference center. Innovation Works supplements the many local market innovation resources in place throughout Snap-on’s global footprint.

About Snap-on Tools

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks. Products and services include hand and power tools, tool storage, diagnostics software, information and management systems, shop equipment and other solutions for vehicle dealerships and repair centers, as well as for customers in industries, including aviation and aerospace, agriculture, construction, government and military, mining, natural resources, power generation and technical education. Snap-on Tools is one of the largest non-food franchise companies in the world, selling its products and services through franchisee, company-direct, distributor and Internet channels. Snap-on Incorporated, which was founded in 1920, is a \$2.9 billion, S&P 500 company located in Kenosha, Wis. with operations throughout the world. For additional information, visit www.snapon.com.
