News from Innovation Works: Mobile Work Station for VERDICT

KENOSHA, Wis. – August 1, 2013 – Snap-on is leading the way in mobile diagnostic equipment with the new mobile work station (KRSC332PC) featuring the VERDICT[®] Diagnostic and Information system. This innovative and versatile cart will allow service technicians to use their VERDICT anywhere in the service bay much more quickly and productively.

“Our new cart offers service technicians mobility and efficiency for their VERDICT system,” said Jay Serpe, product manager for Snap-on. “The cart is a secure, fully enclosed, mobile work station for diagnostic work. Durable and adaptable, the KRSC332PC will keep the VERDICT system and accessories protected and secure, allowing techs to utilize the VERDICT anywhere in the shop.”

The Snap-on[®] VERDICT Mobile Work Station (KRSC332PC) is welded, not bolted, for superior strength. It is equipped with a mounting plate inside the lid with pre-set weld nuts to attach the monitor permanently and securely for viewing from a distance when the lid is open. The system is fully enclosed and easy to open and shut; the monitor and the VERDICT stay in position, ready to use. Pre-cut foam is designed to accommodate the VERDICT diagnostic system with all its accessories and adaptors for easy accessibility and also aids in quickly identifying any missing accessories or adaptors. The mobile work station is also protected by Snap-on’s tough powder coat paint with XMR, providing extra chemical and scratch resistance, to keep it looking great.

Customers can learn more about the new *Snap-on* VERDICT Mobile Work Station (KRSC332PC) by contacting their participating Snap-on franchisee or representative, visiting www.snapon.com or by calling toll free 877-SNAPON-4 (877-762-7664).

About Snap-on Innovation Works

Innovation Works is a 25,000 square foot, state of the art facility located at Snap-on’s Kenosha campus that provides a resource for the entire global organization. It supports a vibrant customer-centered innovation process. The space includes a sophisticated service garage, franchise van display, 2D prototyping room, design lab, 3D modeling facility, display and application room, customer observation room, training room, museum and IdeaFORGE - a 600 capacity multimedia conference center. Innovation Works supplements the many local market innovation resources in place throughout Snap-on’s global footprint.

About Snap-on Tools

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks.
