New Snap-on Light Duty Prying/Smoothing Tools A “Must Have” for Every Tech

KENOSHA, Wis. – June 27, 2013 – Flexible, durable and easy to use, the new Snap-on® three-piece set of Light Duty Prying/Smoothing Tools (PPN300) has so many uses, it is a “must-have” addition to any tool storage unit.

“Once service technicians start using our new Snap-on prying/smoothing tools, they will quickly come to realize how many different ways they can be utilized. These tools can quickly pay for themselves through increased efficiency in the bay,” said Bryan Hantke, product manager for Snap-on.

The *Snap-on* three-piece set of Light Duty Prying/Smoothing Tools is perfect for spreading or smoothing epoxy, adhesives and silicone uniformly. Other uses include cleaning small parts, paint stripping in confined spaces, removing and installing O-rings and gaskets, prying dashboard parts and vents, and prying apart electronic key fobs to access the battery for replacement.

The PPN300 tools are made from a special blend of strong, glass-reinforced nylon that offers a rare combination of flexibility and strength. While the non-marring composite material will not scratch soft metals, painted surfaces or other composite material, it should not be used on glass, laminates or acrylic material as it may scratch those surfaces.

Customers can learn more about the new *Snap-on* three-piece set of Light Duty Prying/Smoothing Tools (PPN300) by contacting their participating Snap-on franchisee or representative, visiting www.snapon.com/handtools or by calling toll free 877-SNAPON-4 (877-762-7664).

About Snap-on Tools

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks.
