New Snap-on CT761 Impact Gets into Tight Spaces with Power

KENOSHA, Wis. – Feb. 9, 2014 – Get unimaginable power and unrestrained productivity with the new Snap-on® 14.4 Volt 3/8-inch Drive MicroLithium Cordless Impact (CT761).

“Our new CT761 has 70 percent more torque than previous models with little increase in size. No other cordless impact wrench comes close to this much power in such a compact design,” said Rodger Isetts, product manager for Snap-on. “The CT761 allows users access hard-to-reach places that they could never go with an air wrench, yet still have the power to get the job done right.”

Providing 120 ft. lbs. of torque output, the new *Snap-on* 14.4 Volt 3/8-inch Drive MicroLithium Impact produces 2,000 RPMs of free speed to handle a wide range of torque applications. A nose-mounted LED offers plenty of light and the CT761 warns the user if they are under voltage or over current, shutting down the impact before it overheats.

The *Snap-on* CT761 is perfect for cramped engine compartments and other restricted access applications. It is also ideal for fender bolts, water pump pulley bolts and seat removal. A variable-speed, toggle-style trigger gives precise control to the user, avoiding over torquing or snapping fasteners.

Weighing just over two pounds, the light-weight CT761 lets the user work comfortably for longer periods of time, increasing productivity on the job. In addition, the 14.4 volt Impact with 2.0 Ah battery delivers longer run time and the fuel gauge notifies the operator how much battery life is left. The battery recharges in under an hour and is interchangeable with all *Snap-on* 14.4 MicroLithium tools.

Customers can learn more about the new [Snap-on 14.4 Volt 3/8-inch Drive MicroLithium Impact \(CT761\)](#) by contacting their participating Snap-on franchisee or representative, calling toll free 877-SNAPON-4 (877-762-7664) or visiting www.snapon.com/powertools.

About Snap-on Tools

Snap-on Tools is a subsidiary of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks. Products and services include hand and power tools, tool storage, diagnostics software, information and management systems, shop equipment and other solutions for vehicle dealerships and repair centers, as well as for customers in industries, including aviation and aerospace, agriculture, construction, government and military, mining, natural resources, power generation and technical education. Snap-on Tools is one of the largest non-food franchise companies in the world, selling its products and services through franchisee, company-direct, distributor and Internet channels. Founded in 1920, Snap-on is a \$3.1 billion, S&P 500 company headquartered in Kenosha, Wisconsin. For additional information, visit www.snapon.com.
