Bring on the Holidays with Special Gifts from Snap-on

KENOSHA, Wis. (Nov. 14, 2016) – You can feel it in the air and see it on the calendar...it's time to bring on the holidays with special gifts from the 2016 Snap-on® Holiday Gift Guide. More than 150 items to organize tools, protect or brighten workplaces, provide power and flexibility, and meet every tech's needs are on the pages of the Snap-on® Holiday Gift Guide. Check out these highlights:

Snap-on® TLLF72 1/4" Drive Long Handle Flex Head Ratchet

The TLLF72 features an extra-long handle that allows for easy reach and leverage, especially for under dash fasteners. The sealed head keeps lubrication in and dirt out; engineered with Dual 80® technology for strength with minimum swing arc and maximum durability.

Snap-on® MG725 1/2" Drive Heavy-Duty Impact Wrench

Whether you opt for green, red or orange, this heavy-duty impact wrench is a year-round favorite for maximum power to handle the toughest jobs. The motor is built for fast start-up and more torque, and the twin-hammer impact mechanism creates harder hitting blows with fewer moving parts. Even with all its power, the MG725 is designed for balance and control. The patented tip valve trigger and cushion grip provide greater control and comfort.

Snap-on® CTRS761 14.4 V MicroLithium Cordless Reciprocating Saw Kit

The variable speed CTRS761 is lightweight, but tough; small enough to get into tight places; and the solution for cutting a variety of materials. The depth guide can be adjusted without the use of tools, and the long-lasting MicroLithium battery keeps the saw working longer. An integrated LED work light makes it easier to see the cutting area, and the dual chuck mechanism makes blade removal quick and easy.

Snap-on® TQFR250EO/TQFR250EG 1/2" Drive Flex-Head TQ Series Torque Wrench

The TQFR250 Torque Wrench head flexes up to 15° for exceptional clearance and is guaranteed accurate within ± 4 percent of any clockwise setting. The thumbscrew and screw guards make the torque easy to modify and prevents it from being moved off the correct setting. The micrometer-style adjustment knob allows for fast setting, and the read-out is easy to see in the torque window. Available in green or orange, a composite grip keeps users' hands free of heat and cold transmission.

Snap-on® Holiday Gift Guide specials are available now through December 31, 2016 from your participating Snap-on franchisee or other sales representative. Find out more by visiting www.snapon.com or calling toll-free 877-SNAPON-4 (877-762-7664).
