In "Top Tools" News from Snap-on: Now's the Time for Shops to Promote Tire Safety for Summer Road Trips

KENOSHA, Wis. (June 27, 2017) – When purchasing tire service equipment, shops look for how much time is spent training technicians and ultimately operating the equipment. The Snap-on EEWB334A Motorized Wheel Balancer with Video Display and EEWH329A Swing Arm Tire Changer are designed to improve technician productivity and the shop's bottom line.

The new EEWB334A Motorized Wheel Balancer with Touchscreen Video Display combines fast set-up with easy operation. The data entry arm automatically configures the correct mode, so there's no need to enter the wheel type. A sonar sensor automatically measures the rim width. During operation, a laser points to the exact location for accurate weight placement and LED wheel lighting to make critical balancing work faster and easier. An improved user interface provides easy-to-read measurement results and enhanced weight placement mode selection.

The EEWH329A Swing Arm Tire Changer allows for fast set-up time and its generous swing arm is designed to clear taller profile tires. The self-centering jaw clamps provide a nylon-protected grip and are adjustable up to 24" to accommodate tires up to 42". The three-position bead breaker can handle SUVs and light trucks with higher sidewalls, and the pneumatic bead assist helps mount stiff sidewall, low profile tires. Snap-on made the mount-dismount head easier to access by placing it in the 3 o'clock position in reference to the single speed 110V turntable, and it locks in place away from the rim edge. This swing arm tire changer works for passenger car, truck and high-performance wheels.

Snap-on backs these tire and wheel maintenance solutions with some of the best warranties in the marketplace to make safety and dependability priorities in the shop and on the road.

Find out more about these and other Snap-on tire changers and wheel balancers by contacting your participating Snap-on franchisee or other representative, visiting www.snapon.com or calling toll-free 877-SNAPON-4 (877-762-7664).
