Snap-on[®] 16.4 Interactive Application Guide Now Available

LINCOLNSHIRE, IL, Oct. 18, 2016 – The Snap-on[®] Software Upgrade 16.4 Interactive Application Guide (IAG) is now available for customers to view the magnitude of Snap-on software that is offered for the latest upgrade. The complete guide can be downloaded and viewed at <http://diagnostics.snapon.com/IAG> on a computer, iPad or tablet.

“Everything that technicians need to know about the latest software upgrade, as well as coverage from previous upgrades, is within the new Snap-on 16.4 Interactive Application Guide and can be easily accessed with just a few clicks,” said Leian Wunderlich, program manager for Snap-on Diagnostics.

The [16.4 Interactive Application Guide](#) is divided into 10 sections that include: video, the stats, subscription, application guide, personality keys, what’s new, vehicle makes, platform accessories, SureTrack[®] and MODIS[™] Edge features. To navigate the guide, technicians simply click on the section that they’d like to visit and then click on the ‘return to home’ button to get back to the main menu.

Standout features of the 16.4 Interactive Application Guide include, but are not limited to: specific coverage added for each make in the Snap-on software, Troubleshooter and Guided Component Test screen shot examples, details for Auto-ID/Code Scan/Clear All Codes, SureTrack and subscription information, accessory information for each platform and much more.

Snap-on Software Upgrade 16.4 covers 21 domestic makes, 15 Asian and optional coverage for 12 European makes. It also features new 2016 domestic and Asian coverage for GM[®], Infiniti[®], Lexus[®], Mazda[®], Nissan[®], Scion[®], Subaru[®] and Toyota[®]. Technicians have access to over 98,000 new codes, tests, tips and data for model years 1996 to 2016. The exclusive Fast-Track[®] Troubleshooter coverage goes all the way back to 1980 with 15,300 new tips and timesavers. Plus, the new software offers 23,860 Guided Component Tests, such as training and tips for diesel emission systems, EVAP systems and body systems sub codes engine drive cycles.

For more information, contact a participating Snap-on franchisee or other sales representative or visit <http://diagnostics.snapon.com>.
