## Snap-on Adds New Diagnostic Quick Tips Training Videos to Website and YouTube Channel

LINCOLNSHIRE, IL, Feb. 16, 2016 – Snap-on has recently added four new Diagnostic Quick Tips training videos to its [website](#) and [YouTube](#) channel to help professional technicians speed up their diagnostic capabilities. The free videos provide training in an easy to watch format so technicians can use their Snap-on diagnostic tools to address specific problems on a vehicle.

“The new Diagnostic Quick Tips videos, based on real case studies, show how to apply diagnostics to specific vehicles and applications through two minute demonstrations of diagnostic tools solving common problems,” said Mark Schaefer, director of marketing, Snap-on Diagnostics.

The videos include:

- **Ford PATS Key Programming Vehicle: 2007 Ford Taurus**  
Have you ever needed to program a set of keys to a vehicle? This Diagnostic Quick Tip shows how to program keys using a scan tool.
- **MINI Battery Relearn**  
Have you ever had to replace a battery on a MINI or BMW, only to find out that the vehicle was not charging properly? This Diagnostic Quick Tip shows how to relearn the system after a battery replacement using a scan tool.
- **ShopStream Connect – Data Manipulation**  
Being able to record and analyze scanner data is pretty useful, but how do you look over the data once it's saved? This Diagnostic Quick Tip shows how to use the free ShopStream Connect software to view data that is stored on a scan tool.
- **Air/Fuel Ratio Sensor Test Vehicle: 2013 Toyota RAV4**  
Modern air/fuel ratio sensors can be difficult to test and inspect. This Diagnostic Quick Tip shows how to test and inspect an air/fuel sensor using a scan tool.

To find the Quick Tips on the Snap-on website, visit <http://diagnositcs.snapon.com/TrainingSolutions> and select a diagnostic tool. Once a Quick Tip has been selected, technicians will see which diagnostic tools the tip applies to, read an overview of the problem and then watch the resolution video.

Hosted by Snap-on National Field Trainer, Jason Gabrenas, the complete Quick Tips series is free of charge and available 24 hours a day, seven days a week online so technicians can watch the videos when it is most convenient for them.

**About Snap-on Diagnostics:**

Snap-on Diagnostics is part of Snap-on Incorporated, a leading global innovator, manufacturer and marketer of tools, diagnostics and repair information and systems solutions for professional users performing critical tasks. Products are sold through the company's franchisee, company-direct distributor and Internet channels. Founded in 1920, Snap-on is headquartered in Kenosha, Wis.
