Snap-on Offers Top 15.4 Reasons to Upgrade to Latest Diagnostic Software Release

LINCOLNSHIRE, IL, March 10, 2016 – In order for professional technicians to expand their diagnostic capabilities and service more vehicles throughout the day, it's critical that their diagnostic tools are up-to-date with the latest vehicle coverage. Snap-on Software Upgrade 15.4 provides day one performance so they can be efficient and productive in the bay, every day. With coverage for 21 domestic and 15 Asian vehicles, as well as optional coverage for 11 European makes, technicians will see faults more clearly, make the fixes more quickly and be at their best always.

Here are the top 15.4 reasons why technicians should choose the latest Snap-on diagnostic software:

1. Key Programming for Ford Passive Anti-Theft System (PATS): key programming at the technicians' fingertips for most 2005-2010 models

2. Chrysler HVAC Systems: 2005 and newer vehicles codes, data and tests

3. Ford 6.7L Diesel Functional Tests: 36 new OEM-level functional tests keep profits in-house

4. Ford and Mazda Unified Diagnostic Service (UDS) Transmission Relearns and Tests: finish the job by using these factory-level functions

5. GM Object Detection Systems: 2005 and newer Buick vehicles - don't send this work to the dealer

6. Mazda UDS ABS Functional Tests: test these systems with confidence

7. Mitsubishi Engine Timing Chain Maintenance Functional Test: use this important maintenance function to finish the job right the first time

8. Chrysler Air Suspension System: factory-level functional tests help technicians fix it right and finish the job

9. Chrysler Body Control Module (BCM) Configuration: this factory function will allow technicians to keep more jobs in-house

10. Honda Keyless Entry and Push Start Systems: codes, data and functional tests for these important systems

11. Hyundai / Kia 4WD Clutch Functions: clutch learn read, write and reset functions help technicians finish the job

12. Hyundai / Kia Advanced Safety Systems: these new systems keep technicians from sending the work down the road

13. Training and Tips for Diesel Emissions Systems, EVAP Systems and Body Sub-Codes: built-in training in just a few clicks

14. Guided Component Tests for Hybrid Electrical and Enhanced Body Electrical Systems: verify the problem with these simple, powerful tests

15. Access to over 14 million RealFixes, commonly replaced parts graphs, tips, tests and PID waveforms with SureTrack® access: Wi-Fi capable platforms only

15.4 With added coverage back to 2005, technicians get more tests and functions for the vehicles that they see on a daily basis

The Snap-on Software Subscription program helps technicians get through repairs quickly and accurately by continuously delivering high quality coverage and real-time access to information without having to think about it. Every piece of new coverage added expands the technician's capabilities for late-model and older vehicles, many back to 1992, and helps them stay at their maximum earning potential. Not only does the subscription program offer a lower payment, but it rolls in the SureTrack online resource of expert knowledge for eligible platforms at no additional charge.
