## SureTrack Now Available to MODIS Ultra Users with New Software Upgrade 14.4

**LINCOLNSHIRE, IL, Jan. 20, 2015** – When MODIS™ Ultra users purchase the new Snap-on Software Upgrade 14.4, not only will they have the latest and most powerful diagnostic solutions at their fingertips, but they will also gain access to the SureTrack® online resource of expert knowledge, diagnostic experience and parts replacement records from millions of successful repair orders.

“Technicians who upgrade their MODIS Ultra multifunction tool to Software Upgrade 14.4 with SureTrack will be able to work with experience the very first time they see a problem or vehicle. They will be able to diagnose quicker and with more accuracy than ever before,” said Mark Schaefer, director of marketing, Snap-on Diagnostics. “SureTrack Real Fixes show problems solved in a straightforward complaint, cause, correction format. The verified parts replacement records show technicians the most common repairs used to fix fault codes and vehicles similar to the one in their bay. With MODIS Ultra and SureTrack, technicians can diagnose the problem, verify the failed part with confidence and complete the repair fast, saving valuable time, while increasing profits.”

Highlights of MODIS Ultra expert information include:

- Common replaced parts data for successful repairs for specific symptoms, codes and vehicles
- Millions of tips and fixes harvested from completed repair orders and validated by SureTrack expert technicians
- Up-to-the-minute intelligence based on vehicles currently in service bays nationwide
- Guided component tests and waveform library gathered through on-vehicle tests

MODIS Ultra is multifunction tool for complete start to finish diagnostics that includes a fully integrated scan tool, lab scope, vehicle-specific communication software and expert information resources, all in one diagnostic tool. MODIS Ultra offers the unusual combination of sophistication and simple operation, suited for all technicians, from rookies to seasoned diagnostic specialists.

In addition to MODIS Ultra, Sure Track is available for VERUS®-family products, VERDICT®-family products and SOLUS™ Edge.
