Snap-on Adds Free VERUS® Edge Training Solutions Modules to Website and YouTube

LINCOLNSHIRE, IL, Dec. 1, 2015 – Snap-on has recently added VERUS® Edge Training Solutions videos to its website at <http://diagnostics.snapon.com/trainingsolutions> and [YouTube](#) channel. The 12 modules are designed to help navigate the features and functionality of the latest Snap-on diagnostic tool which comes fully loaded with more vehicle coverage, expert resources and industry knowledge than any other full-featured platform on the market so it is ready for anything.

VERUS Edge Training Solutions videos cover:

- Introduction and Controls
- Capabilities Overview
- Scanner Codes
- Scanner Data PID View
- Scanner Data Graphing View
- Technical Service Bulletins
- Troubleshooter
- Functional Tests
- Global OBD-II
- Digital Multimeter
- Graphing Multimeter
- Guided Component Tests

The Snap-on Training Solutions videos provide quality product training that is available to technicians 24 hours-a-day, seven days-a-week, when it is most convenient for them. They are free-of-charge and technicians can revisit the training sessions as often as necessary to learn at their own pace and comfort level.

“The five-minute Training Solutions videos teach all of the latest diagnostic techniques so technicians can get the most out of their diagnostic tools,” said Mark Schaefer, director of marketing, Snap-on Diagnostics. “They are offered as short instructional videos on specific topics, so technicians can quickly get answers on any aspect of tool operation.”

Each module is hosted by National Field Trainer Jim Moritz. With over 30 years of experience in automotive diagnostics, engineering, marketing, training and technical support, he has developed over 100 training courses and trained over 100,000 students. His memberships and certifications include NASTF, ETI, SAE and ASE.

VERUS Edge delivers integrated diagnostics in a next generation tool, offering everything that technicians need to seamlessly navigate any job from start to finish, wirelessly from anywhere in the bay. The onboard diagnostic software suite provides integrated access to the scanner, scope, guided component tests, expert information and technical service bulletins (TSBs), all from one location. The data manager allows technicians to save their customers’ vehicle records, notes, scanner data and scope data. The onboard digital camera lets them take

pictures for repair records and save them to the internal hard drive. Connection to a printer is simple so they can share vehicle results with customers.
