

PROPACK

ProPack Installation Guide for Manager SE 5.9 or 6.4

Thank you for purchasing ProPack components from Snap-on. We have employed the latest technology to bring to you an extremely powerful new product. ProPack includes three unique modules that work together seamlessly with your management system. Please review systems requirements and download your software from the link below. Within a few business days you will receive a call from one of our engineers to finalize the configuration of your new applications.

- [Click Here](#) or open your browser and navigate to
<http://www1.snapon.com/diagnostics/us/InformationProducts/ShopKey/ShopKeyShopManagement/ProPackDownload>
- At the top of the page, click on the download link and save the file to a convenient location.
- Once the download is complete, double click on the file to begin the installation.
 - You will be asked what version of software you want ProPack to work with. The software will work with version 5.9 and 6.4.
 - Once installed, Report Pro and Lube Sticker Pro will work without licensing for 5 days.
- To use the Lube Sticker and Report Pro functionality immediately call 888.724.6742 x8110 or see your Snap-on representative.
- Advanced configuration information can be found at:
<http://www1.snapon.com/diagnostics/us/InformationProducts/ShopKey/ShopKeyShopManagement/ProPackDownload>. Select **Configuration Guide** to view the PDF document.
