

# ServiceWriter™ SE Shop Management™ SE

## Introducing Credit Card Processing

Integrated credit card processing is the latest enhancement to ServiceWriter SE/Shop Management SE that allows you to process credit and debit card payments directly from your ShopKey Shop Management software. The integrated X-Charge® software provides a secure and efficient solution for all your electronic payment processing needs. This easy-to-use software saves time and eliminates errors by removing the need to access both the shop management system and the credit card payment software.

Contact your ShopKey Payment Processing Specialist today and receive a FREE ANALYSIS of your current provider, including a rate and fee comparison, to determine the best option for your business.

## Benefits:

- Complete integration with ServiceWriter SE/Shop Management SE (Version 6.4)
- Rapid authorization times (Two to three seconds on high-speed Internet)
- Supports all major credit and debit cards
- Robust reporting accessed through ServiceWriter SE/Shop Management SE
- PCI-compliant (X-Charge is a PA-DSS validated payment application)
- Eliminate errors. No re-keying of sales information on a separate terminal
- Easy-to-learn, simple-to-use
- Unlimited tech support for X-Charge processing software
